

HP Landscaping

Client Communication Guidelines

CONFIDENTIAL - FOR EMPLOYEE USE ONLY

Last Updated: April 2026

Professional Standards

As an HP Landscaping employee, you represent our company at every client interaction.

1. Greet clients warmly and introduce yourself by name
2. Maintain a professional appearance at all times
3. Never use profanity or inappropriate language on job sites
4. Do not use personal phones while actively working on a client property
5. If a client asks a question you cannot answer, say "Let me have my manager get back to you on that"

Handling Client Concerns

If a client raises a concern or complaint:

- Listen attentively and acknowledge their concern
- Do NOT argue or become defensive
- Document the concern and report it to your crew leader immediately
- Never make promises about timeline or cost adjustments without manager approval
- Follow up with the client once a resolution has been determined

Social Media & Photography

Do not photograph or post about client properties on personal social media without written consent.

All company social media posts must be approved by the marketing team.

If a client requests photos of completed work, direct them to the office.
