

HP Landscaping

Safety Procedures

CONFIDENTIAL - FOR EMPLOYEE USE ONLY

Last Updated: April 2026

General Safety Guidelines

Safety is our top priority at HP Landscaping. Every employee is responsible for maintaining a safe work environment.

1. Always wear required PPE: safety glasses, gloves, hearing protection, and steel-toed boots
2. Conduct a site walk-through before beginning any work
3. Identify and report hazards immediately to your crew leader
4. Never operate equipment you have not been trained on
5. Stay hydrated and take breaks in hot weather conditions

Heat Illness Prevention

Working outdoors exposes employees to heat-related illness. Follow these protocols:

- Drink at least 1 cup of water every 15 minutes in temperatures above 85F
- Take mandatory 10-minute shade breaks every hour when above 90F
- Watch for signs of heat exhaustion: dizziness, nausea, headache, rapid heartbeat
- If a coworker shows signs of heat stroke, call 911 immediately and begin cooling measures

Incident Reporting

ALL workplace injuries, near-misses, and property damage must be reported within 24 hours.

Steps: 1) Secure the area. 2) Administer first aid if trained. 3) Notify your supervisor. 4) Complete an Incident Report Form. 5) Cooperate with any investigation.

Retaliation against employees who report safety concerns is strictly prohibited.
